<p>Competencies/Skills Required</p> <ol style="list-style-type: none"> 1. Customer Focused: Grow and maintain customer relationships to achieve satisfaction throughout the project. <ul style="list-style-type: none"> ● Identify and describe the customer's expectations 		

- Show interest in, anticipate, and have timely response to customer needs
 - Go beyond basic expectations to help customers implement solutions
 - Explore options when unable to deliver a requested product and/or pursue solutions until the customer is satisfied
 - Seek ways to improve project delivery and completion
2. **Collaboration and Teamwork**: Establish a working relationship with project stakeholders such as vendors, sales managers, project managers, estimators, external and internal team members.
- Know and support resources who need or ask for support or assistance. Seek and consider ideas from diverse viewpoints
 - Encourage the delegation and sharing of tasks, information or expertise, work together to solve problems, and put project success first
 - Build rapport/trust by listening to, discussing with, encouraging and motivating others
 - Seek to resolve confrontations and disagreements constructively by focusing on the situation, issues, or behaviors, rather than the people
3. **Adaptability**: Be flexible with changing customer and project needs
- Respond positively to changes, and be willing to use new practices to accomplish goals and solve problems appropriately
 - Adapt goals and methods to achieve results in changing situations
 - Manage change in a way that has a positive impact on desired outcomes
 - Be proactive and address concerns/issues before they become a problem
4. **Communication** (oral and written): Manage information flow and relationships between customers, other business units; encourage and seek feedback
- Ensure that important information from the customer is shared in a timely manner with others assigned to the project
 - Use appropriate means of communication (e.g., emails, calls, meetings)
 - Understand all key processes and communicate effectively with clients, partners, team and leadership.
 - Communicate in an articulate (verbal), easily understood manner and convey ideas and facts using language the customer and internal team members best understand
5. **Detail Oriented**: Pursue quality in accomplishing tasks and managing opportunities by performing tasks thoroughly and carefully with few errors.
- Input data correctly within Salesforce such as opportunities, proposals and other reports
 - Check work to ensure accuracy and completeness
 - Compare finished work to what is expected and address inconsistencies
 - Drive continuous improvement for data management
6. **Integrity and Ethics**: Earn others' trust and respect through consistent honesty and professionalism in all interactions.
- Respect and maintain confidentiality
 - Be truthful and keep promises and commitments made to others
 - Adhere to a set of core values that are represented in decisions and actions
 - Exhibit a heart for serving others by participating in "pay it forward" opportunities, and regional, local and national volunteer engagements
